Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A) Claims 1-19 are indefinite because they do not recite an active step that recites the preamble.

The response has amended the claims to recite introducing. While the amendment is a correct step toward incorporating active steps in a method claim. The step does not reflect the preamble or method goal of "reducing fluorescence quenching. It is recommended that the phrase be incorporated "thereby reducing the fluorescence quenching caused by a measuring medium.
